

I am an XM Radio subscriber. I find the traffic and weather channels on XM extremely useful. Satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I am urging the FCC to reject the NAB's petition 04-160 and to support XM Radio's ability to provide the kind of programming that I demand and deserve.

Thank you,

Barbara Jean McAtlin
